On July 31, 2021, we did an outdoor activity, **GEOCACHING!**

We found **FIVE CACHES!** We exchanged items in some of the boxes. We also installed a **trackable cach** called **The Cleaner Pharaoh** (Reference # TB90DK5). We set the

Goal as **"Try to get it closer**

until it makes it to Egypt. On the way, pick up trash and keep the surroundings clean."

Geocaching is an outdoor recreational activity, in which participants use a Global Positioning System (GPS) receiver or mobile device and other navigational techniques to hide and seek containers, called "geocaches" or "caches", at specific locations marked by coordinates all over the world.
